DETAILED ACTION

Response to Amendment

This action is in response to Applicant's amendment filed December 8, 2005. Claims 1, 2, 6, 9-16, 19 and 22-45 are presented for examination.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 8, 2005 has been entered.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 29 and 30 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Art Unit: 2143

Claims 29 and 30 are not limited to tangible embodiments. "A computer program signal product embodied in a propagated medium" is non-statutory as not being **tangibly embodied** in a manner so as to be executable. In view of Applicant's disclosure, specification page 24, lines 21-25, the medium is not limited to tangible embodiments, instead being defined as including intangible embodiments (e.g., a radio wave, an infrared wave, a laser wave, sound wave, or an electrical wave). As such, the claims are not limited to statutory subject matter and is therefore non-statutory. To overcome this type of 101 rejections the claims need to be amended to include only the physical computer media and not a transmission media or other intangible or non-functional media.

Allowable Subject Matter

Claims 1, 2, 6, 10-16, 22-28 and 31-45 are allowed.

In combination of every elements disclosed in the independent claims, the prior arts of record fail to teach the claimed tagged document which is an application defining document associated with a filtering document as evidenced in specification page 27, lines 12-16, as well as the audible output being generated based on predetermined expected patterns in the filtering document (see Applicant's remark page 17).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alina N. Boutah whose telephone number is 571-272-3908. The examiner can normally be reached on Monday-Friday (9:00 am - 5:00 pm).

Art Unit: 2143

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David A. Wiley can be reached on 571-272-3923. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
